Tripoli University, *Tripoli - Libya* **Jun 99 – Jul 03**
Head of the Anatomy department:

- Was appointed to take charge of the anatomy department of Tripoli University, which is one of Libya's largest universities.
- Efficiently responded to all the problems that faced the department, including bringing lecturers from neighbouring countries, like Egypt, when there was shortage in lecturers and examiners.
- Motivated and lead the teaching staff in providing excellent theoretical and practical anatomy lectures for undergraduate students.
- Provided advanced anatomy lectures for doctors preparing for postgraduate studies.
- Supervised instructors who gave practical lectures in the human cadaver laboratories.

Tripoli Medical clinic, *Tripoli - Libya*
Consultant Urologist (private job)

Jun 99 - Jul 2003

- Supervised a team of 5 doctors during .
- Ran the urology theater doing most of the major surgery procedures like TURP, Pyeloplasty, Nephrectomy & Urethral implantation.
- Took responsibility of a group of 15 medical students the urology chapter in 5th year surgery course.
- Took responsibility of Sending patients abroad for treatment.
- A member of a major teaching committee in Tripoli University that is appointed to evaluate and improve the quality of teaching surgery in the teaching hospitals.

Tripoli University, *Tripoli - Libya*

Oct 2008 – Till Present

Associated professor in anatomy

During these periods I were responsible for the teaching program of the main three universities in Libya due to deficiency of the teaching doctors in anatomy, performs teaching programs, doing written exams, practical and the orals.

Al-Ruya Medical Training center, Tripoli - Libya

2007 – Till now

Private courses in USMLE and Canadian Evaluation

During this period I did around 40 preparation courses to the doctors preparing for these exams and the results of most of the doctors were excellent. We did solve around twenty thousand MCQs and I assisted them in applying for these exams and in the procedures of the visa . This is the only program done up to now in whole country.

2019 – Till now

i did many courses in gynecology and obstetric for the doctors preparing for MRCOG - Arab board and Libyan board (Basic and clinical science) . These courses were done both attending and online, both locally and abroad with excellent exam results .
