

FATMA ALI ALAZABI

❖ **Personal information:**

Libyan

25/09/1986

Female, Married

❖ **Permanent Home Address:**

Tripoli- Libya.

Janzour – Libya.

Tel: 0915202843.

Email:

Www.fatmaali1986@gmail.com.

Profile

From January 2, 2010, until April 30, 2012, I worked as a lab engineer for two years at two private medical laboratories (Alaqsa and Jnzour Diagnostic Lab) for medical analysis. I have a special interest in immunology, biochemistry, haematology, and microbiology. I developed my foundational knowledge, my scientific knowledge, and my in-depth understanding of various subjects during this time. I spent almost four years working as a teacher assistant in a microbiology lab after completing my studies at college. I feel more confident now and wish to continue doing microbiological research as a result of these experiences. At Alexandria University in Egypt, I am presently doing an MSc in Science with a focus on diagnostic and molecular microbiology at the Medical Research Institute. I had the chance to study in Egypt and gain extensive knowledge in the field of molecular and diagnostic microbiology, including PCR, blotting, sequencing, and other related techniques.

Education

2023 MCs of Science in Diagnostic and Molecular Microbiology at the Medical Research Institute at Alexandria University, Egypt.

2014 Intensive General English and Pre-sessional Course in English for Academic Purposes at iels (Lal) Language Centre, Malta.

2014 Intensive General English and IELTS Preparation (Academic) Exam.

2013 Training in the Tripoli University Language Centre, level: A1-2 Higher Elementary.

2012 Training in Tripoli University Language Centre, Level: A0-2 Higher Starter.

2009 BSc, Bachelor's degree in medical laboratories department (Faculty of Medical Technology).

Related work

2010–2014: Tripoli University, Faculty of Medical Technology, Department of Microbiology, Tripoli, Libya. Duties: lecture assistant and lab demonstration; giving tutorials to undergrad students; and lab demonstration in microbiology.

2012 Training in Tripoli Central Hospital, Department of Medical Laboratories, as demonstrated training in all sections of the lab, such as the departments of blood bank, biochemistry, serology, and microbiology.

2010–2012: working as a lab engineer in the Alaqsa lab for medical analysis.

2012–2014: working as a lab engineer at Janzour Diagnostic Lab for medical analysis.

2018: working at Summit International School, Tripoli, Libya.

Courses

- Impact of Microbiology Reports on the Medical Decision.
- Designing of PCR primers & Silencing RNA (siRNA).
- PCR and RTPCR.
- Protein Electrophoresis and Blotting Techniques.

Language Skill

Arabic is a native language, and English is a second language at an upper intermediate level.

Other Skill

IT skill

Competent user of the Microsoft package, Word, PowerPoint, Excel, as well as SPSS statistical analysis. I used these programs to present many results.

Hobbies

Study everything related to my field of study and profession.

Shopping, traveling, and reading.

Published paper

Rezk, Shahinda¹; Alazabi, Fatma²; Anwar, Ezzeldin¹; Sheredy, Amel El¹; ElSawaf, Gamal¹; Selimah, Mohamed³. In the prolonged human battle against colorectal cancer, could genotoxic Escherichia coli be in the front line of the war?.
