

WALID YOUSEF TAR SIN

P. O. Box 4789 Tripoli Libya
Tel: +218 21 3605452 (days), +218 91 2151310 (mobile)
E-mail: *gm@eklil.com*

PERSONAL INFORMATION

Title: Prof.	Family name: Tarsin	First names: Walid
Sex: Male	Date of birth: 3 rd May 1965	Nationality: Libyan
Spoken languages: Arabic and English (fluent).		

EDUCATION

Post Doctoral **April 2003-Aug. 2005**
Honorary Visiting research fellow in Pharmacy
Pharmacy Practice, School of Pharmacy, University of Bradford, Bradford, UK.

Doctoral of Philosophy (Ph.D.) **Nov. 2002**
 Thesis title: “In-vivo, In-vitro and Ex-vivo investigations to identify the influence of inhalation rate when patients use a dry powder inhalers”.
 Pharmacy Practice, School of Pharmacy, University of Bradford, Bradford, UK.

Bachelor Degree (BSc. Pharm.) “*Pharmaceutical Sciences*” **July 1987**
Dissertation title: “The Anti-Microbial Activity of Hydnora Abyssinica”.
Faculty of Pharmacy, Al-Fatah University for Medical Sciences, Tripoli, Libya.

Pre-Pharmacy Certificate “Life Sciences” July 1983
Faculty of Sciences, Al-Fatah University, Tripoli, Libya.

Secondary School General Certificate (SSGC) “*Sciences*” **July 1982**
Ali Al-Naijar Secondary School, Tripoli, Libya.

OTHER RELEVANT COURSES AND SKILLS

English Language Academic course (The Pre-Sessional Programme) **Sep 1999**
English Language Unit, University of Leeds, UK.

Principles of computer and word processing (AW3) **April 1999 - June 1999**
Department of Training, NSR International Enterprise for computers, Tripoli, Libya.

Computer skills: Word processing - MS Word 97.
Statistical packages - MiniTab 11.2, SPSS for windows and MS Excel 97
Presentation packages - MS power point 97.

EMPLOYMENT

Teaching assistant (Pharmaceutics) Al-Fateh University, Tripoli-Libya	Aug. 1987-Dec.1988
Technical Manager (in the committee tender) National Pharmaceutical Company.	Jan 1989-Feb.1995
Pharmacy Director (Owner) Al-Dawahi Pharmacy, Tripoli, Libya.	March 1988-June 1999
Principal Pharmacist Al-Dawahi Pharmacy, Tripoli, Libya.	March 1995-June 1999
Specialist in Clinical Pharmacy Tripoli Medical Centre, Respiratory department	Jan 2004 – Dec 2010
Assistant Professor of Clinical Pharmacy School of Pharmacy, Tripoli University	Aug 2005 – Sep 2014
Associate Professor of Clinical Pharmacy School of Pharmacy, Tripoli University	Sep 2014 – May 2019
Professor of Clinical Pharmacy School of Pharmacy, Tripoli University	May 2019–To date
General Manager Eklil Healthcare, Tripoli Libya	Sep 2004- To date

RESEARCH EXPERIENCE

Research Pharmacist

April 1999 -Date

- Evaluation of drug delivery reproducibility from different inhalation products using Pharmacokinetic methods.
- In-vitro characterisation of inhaled products focussing on Dry Powder Inhalers (DPI) and Pressurised Metered Dose Inhaler (MDI). Determination of resistance characteristics and comparative product features of various marked DPIs to identify the optimum flow and appropriate DPI for different patients.
- Evaluation of factors affecting lung deposition from different inhalation methods and techniques.
- Clinical Trials involving long acting bronchodilators and steroids inhalers for bio-equivalence studies.
- Clinical trials for the evaluation of the In-Check Dial.
- Clinical trials using the inhalation profile recorder to determine the total emitted dose and the fine particle mass of different inhalers in vitro by means of inhalation simulator (The Electronic Lung)
- Clinical trials to identify which inhaled product to prescribe to an asthmatic patients and those with Chronic Obstructive Pulmonary Disease (COPD) using the In-Check Dial.

Technical experiences:

- High Performance Liquid Chromatography method for drug analysis and Aerodynamic particle size characterisation using Twin-Stage Glass Impinger (BP, App. A) And the Anderson Mark-II Cascade Impactor (USP 23).
- Pressure drops and flow rate measurement to identify the resistance of dry powder inhalers.

- Measurement of inhalation profiles of patients uses different inhalers.
- Dose sampling unit, used for the in-vitro dosage emission studies.
- Electronic Lung, used for ex-vivo determination of total emitted dose and fine particle distribution.

LEISURE ACTIVITIES & ACHIEVEMENTS

I enjoy watching and practising most types of sport, particularly Swimming. I competed in the 1980 Olympic Games as a swimmer with the Libyan team; I attended different national and international Competitions (Universade, June 1985, Japan). My ultimate achievement was the Libyan gold medals and record holder of 100 M Backstroke, 400 and 800 M freestyle, (from 1980 till 1986). I was a member of Libyan Swimming Association (LSA).
