Research Activities:

I wrote several working papers in both economic and business administration majors such as:

- The Estimation of Health Production Function in the United States with Reference to the Possibility of Its Application in Libya, Journal of Research and Economical Studies.
- Evaluating the performance of Monetary Policies in Libya during the Period 1980-2015, Journal of Research and Economical Studies.
- The Reality of Using Electronic Means of Payments in Libyan Economy and its Impact on the Liquidity Crisis.
- Estimating the money demand function in Libya using ARDL model during the period 1970-2019

Now I am writing the following economic papers:

- An Attempt to Estimate the Demand for Electricity in Libya by Using the Partial Adjustment Model.
- Economic Consequences of Mismatch Between Education and Labor Market Needs
- The Possibility of Applying Knowledge Management in Libyan Universities.

Also working on the following project:

- Translating an economic textbook entitled “Practical Econometrics by Hilmer” to Arabic language.
