

CURRICULUM VITAE

Aisha Mohamed Dugani

Professor of Pharmacology

Faculty of Pharmacy

University of Tripoli

Phone + 218 92 2327355, Email: a.dugani@uot.edu.ly

EDUCATION

- Ph.D.** Clinical pharmacology (Gastroenterology). Università di Modena e Reggio Emilia (Italy), 1998.
- Dissertation: "Normal and variant forms of estrogen receptors in normal and pathologic liver"
- M.A.** Pharmacology. University of Manitoba (Canada), 1986.
- Dissertation: "Effect of dopamine agonists and antagonists on gastric acid secretion and stress ulcer formation "
- B.Sc.** Pharmaceutical Sciences. University of Tripoli, 1980 (with honor).

PROFESSIONAL EXPERIENCE

- 1980** Demonstrator (Department of pharmacology & Clinical Pharmacy, Faculty of Pharmacy, University of Tripoli)
- 1987-1992** Staff member (lecturer); (Department of pharmacology & Clinical Pharmacy, Faculty of Pharmacy, University of Tripoli)
- 1997- until now** Staff member (Professor); (Department of Pharmacology & Clinical Pharmacy, Faculty of Pharmacy, University of Tripoli)
- 2007-2010** Organizer of postgraduate studies ((Department of Pharmacology & Clinical Pharmacy, Faculty of Pharmacy, University of Tripoli).
- 2011-2013** Vice Dean, Faculty of pharmacy, University of Tripoli

2014-2016

Head, Department of pharmacology, Faculty of Pharmacy

Jun- Dec 2017

Member of the Consultant Committee of Graduate Studies, Ministry of Education,

SUPERVISION OF MASTER DEGREE (PHARMACOLOGY)

1. Study of the Effects of *Linum usitatissimum* Seeds and *Rhus tripartita* Bark Against Ethanol-induced Gastric Ulcers in Rats (Salah Megwez, 2008).
2. Evaluation of the efficacy and tolerability of a combination therapy of Peginterferon 2a and ribavirin in treatment of Libyan patients infected with hepatitis C (Intesar Greesh, 2008).
3. Comparative effect of flaxseed oil (linseed) and fish oil on acetic acid induced colitis in rats (Ahlam A Helawi, 2010).
4. Antithrombotic effect of repeated doses of local olive leaf ethanolic extract in rabbits (Abdullah M Dub, 2010).
5. Potentiation of the gastroprotective effect of ranitidine by verapamil in ethanol-induced gastric ulcers in rats (Zeineb R Sharif, 2012).
6. The effect of mirtazapine on ethanol-induced gastric ulcer in Wistar rats (Huda Y Badi, 2015)
7. Anticonvulsant activity of methanolic extract of *Capparis spinosa* L. leaves (Sara Khasheba, 2015).
8. Study of the effects of preoperative pregabalin administration on postoperative pain in Libyan patients undergoing laparoscopic cholecystectomy (Mounira A Elmansouri, 2015).
9. Effect of pre- and post-treatment with tamoxifen on indomethacin induced nephrotoxicity and hepatotoxicity in rats (Malak MO Eljaafari, 2016).
10. Evaluation of the gastroprotective activity of N-OH imidazole derivative on experimentally induced gastric ulcers in rats (Huda M Zgallai, 2016).
11. "The impact of cyp2c9 and vkorc1 polymorphism in pateint response to warfarin and acenocoumarol" (Mawada MS Jallul, 2018).

PUBLICATIONS

1. Glavin GA, **Dugani AM** and Pinsky C: L-deprenyl attenuates stress ulcer formation in rats. Neurosciences. 1986.
2. **Dugani AM** and Glavin GB: Capsaicin effects on stress ulcer pathology and gastric acid secretion in rats. Life Sciences, 39:153, 1986.
3. **Dugani AM** and Glavin GB. Effects of dopamine agonists and antagonists on gastric acid secretion and stress ulcer formation in rats. Life Sciences 41:1397, 1987.
4. Villa E, Grottola A, Trande P, Rebecchi AM, **Dugani A** and Manenti F: Reactivation of hepatitis B virus infection induced by interferon (INF) in HbsAg-positive, anti HCVpositive patients. The Lancet, 341:1413,1993.
5. Villa E, Camellini L, **Dugani A**, Zucchi F et al: Variant estrogen receptor messenger RNA species detected in human primary hepatocellular carcinoma. Cancer Research, 55:498, 1995.
6. Villa E, **Dugani A**, Rebecchi AM et.al: Identification of subjects at risk for colorectal carcinoma through a test based on k-ras determination in the stool. Gastroenterology,110:1346, 1996.
7. Villa E, **Dugani A**, Camellini L et.al: Variant liver estrogen receptors and response to tamoxifen. Gastroenterology, 111:271,1996.

8. Villa E, **Dugani A**, Camellini L et.al: Type of estrogen receptor determines response to antiestrogen therapy. *Cancer Research*, 56:3883,1996.
9. Villa E, **Dugani A**, Moles A et.al: Variant liver estrogen receptor transcripts already occur at an early stage of chronic liver disease. *Hepatology*,27:938,1998.
10. **Dugani A**, Villa E: Relation between response to antiestrogen therapy and the type of estrogen receptors (ERs) in human primary hepatocellular carcinoma. 1 st International Conference on Oncology, Tripoli 26-28 May 2000.
11. **Dugani A**, Elbishti W et al: Evaluation of anti-ulcer activity of Punica granatum rind against Stress and aspirin-induced gastric ulcer in rats. Fifth conference on medical sciences (9-12/11/2001, Al-Zawia, Giamahiriya).
12. Villa E, Feretti I, Grottola A, Buttafoco P, Del Buono MG, **Dugani A**, Manenti F: Hormonal therapy with megestrol in inoperable hepatocellular carcinoma characterized by variant oestrogen receptors. *British Journal of Cancer* 84(7):881-885 (2001).
