SUMMARY

Detail-orientated, dedicated university professor with a strong interest in applied public health and experience in: Epidemiology • Policy evaluation • Data collection and analysis • Program management and implementation. Strong planning, organising and monitoring abilities, - an efficient time-manager

EDUCATION

University of Aberdeen, Aberdeen, UK 2008 – 2011
PhD Medicine and Therapeutics.

“Pharmaco-epidemiology, Effectiveness and Adherence to Therapy in Childhood Asthma: Utility of Routinely Acquired Primary Care Data”

University of Aberdeen, Aberdeen, UK 2006 – 2007
MSc Clinical Pharmacology.

Tripoli University, Tripoli, Libya. 1989 – 1995
MBBCH.

OTHER COURSES

- An Introduction to R/Advanced Statistical Methods.
 - An Introduction to STATA
 - Applied statistics course/SPSS.
 - ICD training workshop.
 - IRIS, capacity building workshop in iris automated coding ICD-10 of causes of death
 - Civil registration and vital statistics workshop
 - Asthma awareness day/workshop.
 - Basic and advanced Microsoft Access courses.
 - Advanced Pharmaco-epidemiology course.
 - Concepts of evidence-based medicine, information mastery, and critical appraisal of medical literature.
 - Advanced courses in Access databases, Excel, PowerPoint and Word.
 - Information skills training course (searching bibliographic database and use of Refworks software)
 - Attended courses on communication skills, presentation skills, writing project proposals, writing scientific papers, mentor training and student demonstrating.
-

EMPLOYMENT HISTORY

01/2018 –Present Medical faculty, Tripoli University.
Assistant Professor

01/2015 –08/2017 Project coordinator	Centre of Health Information, Ministry of Health.
01/2014 –8/2017 Lecturer	Medical faculty, Tripoli University.
09/2012 – 01/2015 Specialist	Paediatric clinic, <i>Alqadisya</i> polyclinic, Tripoli, Libya.
01/2012-04/2012 Post-doctoral research fellow Project title: “Assessing prescribing of antibiotics in children with asthma using PCCIU database”	Department of Child Health, University of Aberdeen.
05/2003 –05/ 2006 Senior Registrar	Paediatric clinic, <i>Alqadisya</i> polyclinic, Tripoli, Libya.
01/2000 – 04/2003 Senior Registrar	Paediatric clinic, <i>Zawiat aldahmany</i> polyclinic, Tripoli, Libya.
01/1999 – 01/2000 Senior Registrar	Dept of Paediatrics, Tripoli Medical Centre, Tripoli, Libya.
01/1998 – 01/1999 Registrar	Dept of child health, Salah Eldin hospital, Tripoli, Libya.
01/1997 – 01/1998 SHO	Dept of child health, Salah Eldin hospital, Tripoli, Libya.

KEY COMPETENCIES AND SKILLS

- Healthcare databases
 - Experience in the generation and analysis of clinical data.
 - Designed, created and managed large healthcare databases at hospital and primary care levels.
 - Expert in gathering and defining functional requirements, creating trend charts and other decision-making tools.
- Research skills
 - Quantitative research skills.
 - Expertise of data management and processing.
 - Skilled in bibliographic database searching and the use of Refworks database manager software.
 - Proven knowledge of complex statistical methods and proficiency in using statistical software specially SPSS application.
- IT skills
 - Full computer literacy in word processing.
 - Extensive knowledge of spreadsheets, access databases and database tools.

- Language skills
 - Fluent in English (both written and verbal), Arabic native speaker with basic speaking competence in Modern Greek.
- Other skills
 - Ability to prioritise own work in response to deadlines.
 - Effective ability to plan research and organise tasks.
 - Capability to resolve problems independently and collaborate effectively in a team.
 - Ability to seek and find solutions to challenges - exceptionally positive attitude.
- Teaching Responsibilities
 - Assist and support other academic staff in implementing daily programs.
 - Develop, write examinations and participate in oral and practical examination. Also, follow up and evaluate students' research proposals and coursework.
 - Assist undergraduate and postgraduate students with course material and research projects during/after office hours.
 - Contribute to the development of curriculum for public health department.
 - Run practical session is and discussions in statistics, health information and epidemiology.
- Voluntary work
 - EU-funded Libyan Health System Strengthening Programme (EU-LHSS) as a health information systems and primary care expert.
 - ICD 10 training for clinicians and under-graduate medical students.
 - Training and teaching of Medical graduates in Evidence-based-Medicine.

MEMBERSHIP

01/2020- Present Epidemiologist at National Immunization Technical Advisory Group (NITAG)
