

CURRICULUM VITAE

Professor /Awatef Salem El Bouaishi
Professor of pediatric
Tripoli Medical College
Tripoli University

Tel Mobile 00218925611229
Email dr.awatefsalem@gmail.com

➤ **Personal details:**

- **Name:** Awatef Salem Elbouaishi
- **Date & place of birth:** Tripoli, July 19/1964
- **Gender:** Female
- **Marital Status:** Married
- **Nationality** Libyan

➤ **Professional qualification**

- Arab Board of Pediatric Specialization. (March 2009).
- Master's Degree in Pediatrics (July 1999), Faculty of medicine/Alexandria university
- Bachelor of Medicine and Surgery (MBBCh) (Faculty of Medicine – Tripoli University, Tripoli, Libya) (January 1986)

Academic Position	
Date	Position
April 2006	Lecturer of pediatric at Elmergab University
April 2009	Assistant prof. of pediatric at Elmergab University
April 2013	Associate prof. of pediatric at Elmergab University
June 30 th 2017 to present	Prof, of pediatric at Tripoli University

➤ **Membership of learned societies**

- A member of the Libyan Association for Nephrology and Transplant.
- A member of the Libyan Society of Dialysis (LSD)
- A Member of the Libyan Nephrology Society
- A member of the Libyan Pediatric Association.
- A member of the African Association of Nephrology (AFRAN)
- Arab society of nephrology and transplantation
- International Pediatric Nephrology Association. IPNA
- International Society of Nephrology. ISN
- Pan Arab pediatric society of nephrology
- A member of the European Renal Association ERA

➤ **Post-Held & Experience:**

- Consultant Pediatrician and Pediatric Nephrologist at Tripoli University Hospital (TUH).
- Head of pediatric nephrology & dialysis department at TUH
- Professor of Pediatrics, Faculty of Medicine (Elmergab University).
- Teaching staff of the diploma of pediatrics, and nephrology diploma.
- Trainer in the Libyan Board. For Medical Specialities (Since January 2000)
- Trainer and examiner in pediatric at the Arab Board of Health Specializations /the Scientific Council of Pediatric.
- Research evaluation for Arab fellowship students.

➤ **Work experience**

A. March 86 to April 1st .87 Internship

- General medicine 3 months
- General and special surgery 3 months
- Obstetrics and gynecology 2 months
- Pediatrics 2 months
- Community medicine 1 month
- Elective (lab) 1 month

B. Jobs held in position of S.H.O

- **March 1987-Novvember 1989:** General Pediatrics/Tripoli's Children Hospital
- **01.09.88 to 30.08.89:** Neonatology at El Gala Maternity Hospital under supervision of **Dr A.M Aborawi**
- **December 1989-June 1990:** Special Care Baby Unit (SCBU), Tripoli Children's Hospital under the supervision of Dr A.M Aborawi
- **July 1990-February 1991:** General Pediatrics
Tripoli Children's Hospital under supervision of **Dr A. Shaban**
- **March 1991-September 1991:** Intensive Care Unit at Tripoli Children's Hospital under supervision of Dr A.Magadami
- **October 1991- September 1992.**House Officer, Post Natal Unit
Tripoli Children Hospital
- **October 1992- October 1993:** Oncology and Hematology at Tripoli Children Hospital under supervision of **Dr Salem Zarouk**
- **March 1995-April 1996 Part One evaluation exam at Toronto, Canada**
- **October 1996- July 1999**
Master's Degree in Paediatrics, Faculty of Medicine, Alexandria University
- **October 1996 -May 1997**
First Part Including Basic Sciences & Clinical Pathology, Embryology, Genetics, Community Medicine & Statistics, Microbiology, Pharmacology, Pathology, Biochemistry, Nutrition & Physiology
- **October 1997- October 1998:** Second Part Fellowship for One Year
 - Al Shatbi Pediatric Hospital, Faculty of Medicine-Alexandria University
- **Final Examination November 1998**
- Thesis was submitted in July 1999
- **01.01.200 to 01.05. 2018 Nephrology unit with Dr M. Turki at Tripoli Children's Hospital as peditritian and pediatric nephrologist**
- **May 2018- up to now:**
- **Head of pediatric nephrology& dialysis department at TUH.and consultant pediatric nephrologist**

➤ Clinical experience

I. General pediatrics:

I have gained experience in all areas of general pediatrics ranging from proper assessment of cases, doing intervention procedures such as inserting I.V lines, doing lumbar punctures as well as emergency resuscitations.

II. Neonatology

This job involved attending newly delivered babies, doing resuscitation and doing procedures like bladder tap, lumbar puncture, blood exchange transfusion, inserting umbilical catheters, managing

all neonatal cases, attending the postnatal ward, as well as dealing with babies on mechanical ventilation.

III. **Oncology and Hematology:**

In this job, I have experience in dealing with oncology and hematology cases, doing bone marrow aspiration and biopsy, giving intrathecal treatment, attending oncology and hematology clinics, and examining bone marrow and peripheral blood slides.

IV. **Intensive care unit:**

I have experience in dealing with emergency cases, doing resuscitation, inserting chest tubes, doing venous cut down and dealing with patients on mechanical ventilation.

V. **Nephrology:**

I have experience of most pediatric nephrology cases. Attending clinical follow-up clinics such as UTI clinic, general nephrology clinic, good experience in following up children with renal transplant; experience with children with renal stone disease, especially children with hyperoxaluria. I have good experience in Hemodialysis and peritoneal dialysis. Also, I have gained experience in using Ultrasonography in the workup of children with nephrological disease.

➤ **Post-Held & Experience:**

- Consultant Pediatrician and Pediatric Nephrologist at Tripoli University Hospital (TUH).
- Head of Pediatric Nephrology & Dialysis Department at TUH
- Professor of Pediatrics (Faculty of Medicine, Elmergab University).
- Teaching staff of the diploma of pediatrics, and the nephrology diploma.
- Trainer in the Libyan Board. For Medical Specialities (Since January 2000)
- Examiner at the Arab Board of Health Specializations /the Scientific Council of Pediatric.
- Also, Research evaluation for Arab fellowship students.
- Follow up patients at the nephrology clinic from January 2000 up to present, and **post-kidney** transplant patients.

➤ **Researches Which Were Published:**

1. Outcome of Posterior Urethral Valve in Libyan Children.
2. Erythropoietin Therapy of Anemia in Pre-dialysed Patients with Chronic Renal Failure
3. Spectrum of Idiopathic Nephrotic Syndrome in Children.
4. 5. Steroid-dependent and steroid-resistant nephrotic syndrome, treatment and outcomes at Tripoli Children's Hospital presented at the 9th Arab Nephrology Association Conference in Amman, Jordan, 2006.
5. Nephrotic syndrome in Libyan children presented in the second Libyan Nephrology Association Conference, 2006.
6. Results of renal biopsies in children with nephrotic syndrome presented in 3rd Libyan Nephrology Association Conference, 2007.

7. 12. Factors affecting the occurrence of relapse in children with newly diagnosis nephrotic syndrome (Tripoli Children Hospital- 2014)
8. Chronic Kidney disease in Libyan children at Tripoli Children Hospital, treatment and outcome. Serum Leptin Concentration in Normal, Protein-Energy Malnourished and Obese Children
9. Insulin like Growth Factor-I in Children with Nephrotic Syndrome
10. The Effect of Prednisone Therapy on Serum Leptin Concentration in Children with Idiopathic Nephrotic Syndrome
11. Primary hyperoxaluria in children
12. A descriptive retrospective study on children with newly diagnosed Nephrotic syndrome presented to Tripoli Children Hospital during the period between Jan. to Dec. 2014
13. Epidemiology and Clinicopathologic Characteristics of Childhood Nephrotic Syndrome in LIBYA
14. Causes and Diagnostic Significance of Macroscopic Hematuria in Children and Young Adults

➤ **Supervision of Some Research:**

1. Pattern of Hyperoxaluria among Libyan Children.
2. Renal Hypertension in Children.
3. Genitourinary Disorder and Renal Complication.
4. Long-Term Effects of Chemotherapy in Children with Nephrotic Syndrome.
5. Causes of Chronic Renal Failure in Children.
6. Cyclophosphamide Therapy in Children with Steroid-Dependent and Steroid-Resistant Nephrotic Syndrome.
7. Etiology and Outcome of Children Presenting with Hematuria.
8. Atopy in Children with Idiopathic Nephrotic Syndrome.
9. Chronic Renal Failure in Children.
10. Urinary Tract Infection in Children with Vesicoureteral Reflux
11. Urinary Tract Infection in the First Year of Life
12. Relationship of idiopathic childhood nephrotic syndrome and allergy (at remission and during relapses).
13. Vesicoureteral Reflux and Renal Scarring in Infants and Children ≤ 5 years after the Urinary Tract Infection.
14. Risk Factors and Associated Anomalies in Patients with Neural Tube Defects (Experience of one centre /Ali Omer Asker Hospital).
15. Risk factors and associated anomalies in patients with neural tube defects delivered and outpatient visit in Ali Omer Asker hospital from 1-1-2019 to 31-12-2019
16. Effectiveness of rituximab among childhood nephrotic syndrome
Patients in Tripoli Children's Hospital/ From 1st January 2019 to 31st December 2019

17. Effect of prednisolone on linear growth in children with nephrotic syndrome
18. Spectrum of Idiopathic Nephrotic Syndrome in Libyan Children
19. The Prevalence of isolated congenital hydrocephalus from total neural tube defect and its associated Risk Factors
20. An Overview of Idiopathic Nephrotic Syndrome in Children (Tripoli University Hospital)
21. Steroid effect on Serum leptin concentration in children with minimal change nephrotic syndrome
22. Complications and Outcome of Central Venous Catheter Insertion In Children With End-Stage Renal Disease Undergoing Haemodialysis In Libya
23. Effect of Haemodialysis on the Clinical Symptoms of Renal Osteodystrophy in Children with CKD
24. Overview of chronic kidney disease in children (Causes and outcomes)
25. Frequency of Intradialytic Complications in Children with End-Stage Renal Disease on Maintenance Haemodialysis.
26. Thrombocytopenia in Neonatal Sepsis/Experience of one centre (Alzawia University Hospital)
27. The value of renal ultrasound in children with a first episode of urinary tract infection in Tripoli, Libya
28. Cardiovascular risks in chronic kidney disease paediatric patients
29. Leptin hormone in obese children: a comparative study
30. Uncontrolled hypertension in haemodialysis children (causes and risk factors). September 2022
31. Risk factors of end-stage chronic kidney disease in focal segmental glomerulosclerosis nephrotic syndrome children. November 2022.
32. Arteriovenous Fistula for Haemodialysis in Pediatric and Adolescent Patients (Complications and outcome).
33. Overview of Chronic Peritoneal Dialysis in Children
34. Peritoneal Dialysis-Associated Peritonitis in Children
35. Diabetic ketoacidosis in a pediatric intensive care unit at Tripoli's Children Hospital in Tripoli – Libya
36. Causes of Erythropoiesis-Stimulating Agent-Resistant Anaemia in Children with Chronic Kidney Disease at Tertiary Hospital (Tripoli University Hospital)
37. Complications of Mechanical Ventilation in Pediatric Patients in Libya
38. Overview of Incidence of Urinary Tract Infection among Total Nephrology Unit Admissions in 2021
39. Spectrum of Neonatal Admissions and Their Outcome
40. Morbidity and Mortality amongst Infants of Diabetic Mothers (IDM) Admitted to PICU
41. The Effect of Haemodialysis on the Clinical Symptoms of Renal Osteodystrophy in Children with Chronic Kidney Disease

42. Ultrasound Patterns of Parathyroid Glands in Chronic Haemodialysis Children with Secondary Hyperparathyroidism
43. Nutritional Status Assessment of Patients on Haemodialysis At Nephrology and Dialysis Unit (Tripoli University Hospital, Libya).
44. Rituximab Effect in Patients with Nephrotic Syndrome.
45. Causes of Resistant anemia in Haemodialyzed Children with End-Stage Renal Disease.
46. Ventilator-Associated Pneumonia in Intensive Care Unit Children: Risk Factors and Outcomes
47. Histopathological variety of Primary nephrotic syndrome in children
48. Comparative Efficacy of High-Flow Nasal Cannula (HFNC) vs. Early Nasal Continuous Positive Airway Pressure (nCPAP) in Reducing Intubation Rates for Infants with Severe Acute Bronchiolitis in the PICU
49. Rituximab Response in Children with Steroid-Resistant Nephrotic Syndrome: A Retrospective Study at Tripoli University Hospital
50. Clinical Effectiveness, Safety, And Caregiver Satisfaction Of Insulin Pump Therapy Among Children And Adolescents With Type 1 Diabetes Mellitus At Tripoli University Hospital

➤ **Scientific sessions: (Attending many Libyans, Arabic and international conferences.)**

- I have actively participated in two courses in ultrasonography
- Al Academia first symposium for pediatrics 13-14 May 2006 .
- Teaching tips course, September 2010
- Research methodology courses under the supervision of the European Union, 2012 .
- Training course (Hadith on endocrinology in children), Alexandria University, Faculty of Human Medicine, May 1999.
- Training course (Intellectual Education and Neurology for Special Needs Medicine, April 1999)
- Training course (Hadith on endocrinology in children), Alexandria University, Faculty of Human Medicine, May 1999.
- Training course (pediatrics), the Egyptian Society of Pediatrics, July 1999.
- A training course in the field of intensive care for newborns under the supervision of the Medical Skills Center. (14-16 / 11/2009)
- Training course in the field of peritoneal dialysis / May 2007
- ECG course (General Union of Doctors - Alexandria) April 1999.
- Course in Endocrinology and Diabetes at Tripoli Medical Center (10 / 10-1 / 11/2007)
- Course in Hospital Infections, Medical Diseases, Biostatistics
- Computers, Medical Genetics, and Research Methods (9/22/2008 to 1/1/2009).
- Participation in the scientific conference on children's heart diseases (30/4/2009)

- The first symposium for pediatricians at the Graduate Studies Academy, Janzur (13-14 / 5/2006).
- A workshop on peritoneal dialysis (8-10 \ 9 \ 2003).
- Attendance of endocrine and diabetes 2007 course from 30th October – 1st November 2007. Tripoli University Hospital.
- A workshop on genetic diseases under the supervision of the Department of Genetic Diseases and Genetics (5/18/2009).
- A workshop on developing a strategy for food safety and nutrition in the Libyan Arab Jamahiriya (7/19/19/2009)
- A workshop for metabolic diseases twice in Lebanon in 2015 and 2016 with a lecture on cystinosis.
- Effective presentation course & workshop 2016.
- Second National workshop for the development of Libya reproductive, maternal, neonatal, child and adolescent health (RMNCAH) Strategic Plan. Tunis, Tunisia, 28-30 April 2017
- Microbiology course 2018
- Peritoneal dialysis course for intermediate and advanced levels (Tunisia, October 2018)
- First hemodialysis symposium (November 2019)
- Participation in the Sleep Safe Harmony application training in Beirut, Lebanon, from 1- 6 March 2020
- Blueprint MGK Tripoli, 7-8 November 2022
- Peritoneal dialysis & Transplant training program 29 October – 3 November 2022 as lecturer (I gave 5 lectures in this course).
- Anemia in CKD 5th December 2022 / Sharm Sheikh – Egypt
- Neonatal scientific day 31st December 2022.

➤ **Scientific conferences- :**

1. The second annual children's conference in 1999 / Research Center – Janjanzur
2. The third annual children's conference, June 2000
3. Fourth annual children's conference.... 2005
4. Fifth Annual Children Conference, November 2006
5. The first conference on kidney disease in the Jamahiriya - Tripoli, October 2000
6. The second conference of the Libyan Society of Nephrology - Tripoli, May 2006
7. The Third Conference of Kidney Diseases and Transplantation in the Jamahiriya - Benghazi, May 2003
8. The Sixth Conference of the Arab Association of Urology and Reproductive Urology - Tripoli 2005
9. The eighth conference of the Association of Libyan Surgeons - February 2001
10. The second conference of the Libyan Urological Association
11. The seventh conference of the Libyan Orthopedic Association - Tripoli 2001
12. The Fifth Jamahiriya Conference on Medical Science, November 2001

13. The first conference for Libyan doctors at home and abroad - Tripoli, July 2005
14. Fifth annual effect of the Libyan Society of Obstetrics and Gynecology, Tripoli, March 2006.-
15. The Maghreb Conference on Nephrology - Tozer - Tunisia 2004
16. The Seventh Conference of the Arab Society for Kidney Diseases and Transplantation - April 2002 in Manama - Bahrain.
17. The scientific forum for leishmaniasis in Libya - Bani Walid 2003.
18. The Fifth Annual Pediatrics Conference
19. The sixth pediatric conference held in Zliten.
20. The 27th conference of the Egyptian Society of Nephrology in the Arab Republic of Egypt (Cairo) 6/2008
21. Annual conference of the European Society of Kidney Diseases and Transplantation held in Istanbul (8 \ 2008)
22. The Scientific Conference of the Heart held in Alexandria (4/2009)
23. Children's Epilepsy Conference, Alexandria (23-25 April 2009)
24. The Fourth Conference of Kidney Diseases of the same General Department
25. The nineteenth conference of the Arab Society of Pediatrics in Marrakech 6-2013The 51st Kidney Disease Conference (European Intestine for Kidney Diseases) 3-6 October 2018 in Antalya
26. The 37annual Congress of the Egyptian Society of Nephrology and Transplantation (February 2020).
27. Annual Joint Meeting (First Onco-Nephrology Forum) Sabrata, Telil Touristic Compound 16-17 October 2021
28. Libyan international pediatrics conference (15-18 May 2023)
29. The third national congress of Libyan society of dialysis July 07-09 2023

LANGUAGES:

- Arabic:native.
- English: Medical Language.

INTERESTS AND HOBBIES:

- Browsing the Internet.
- Self-education in new software and technologies.
- Reading & walking.
- Teaching and education
- Research
- Travelling
- Very interested in social & charity activities.
- Dealing with multiple group tasks.
